CARRER DE LEPANT

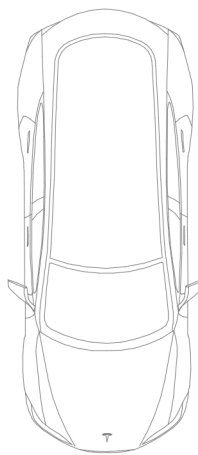

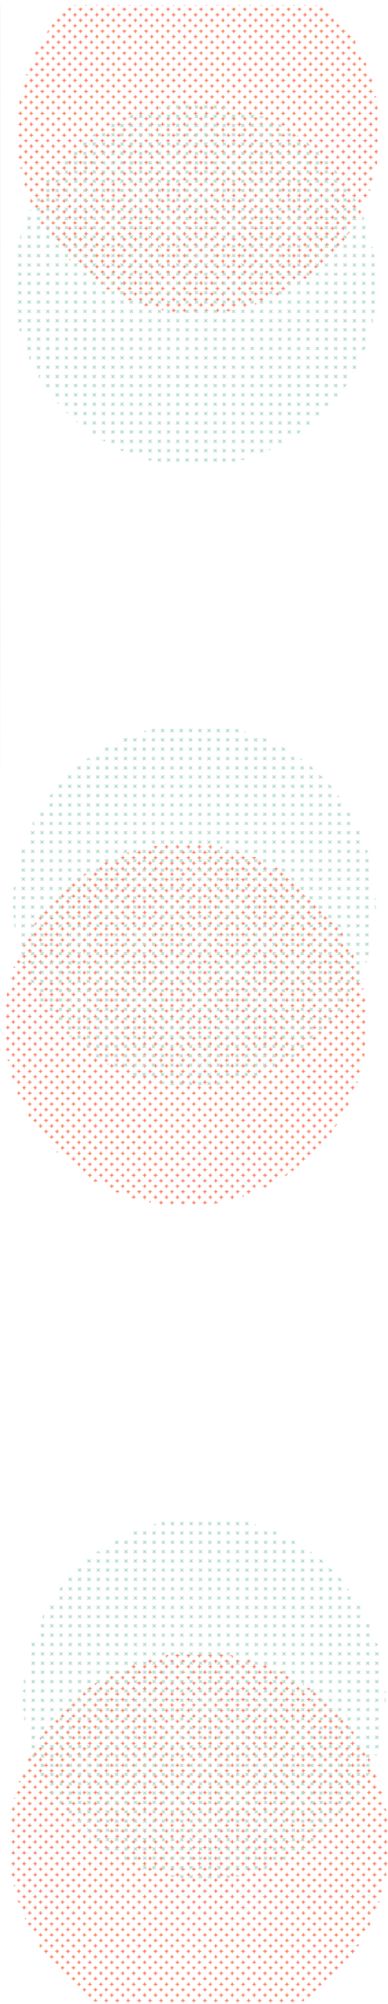

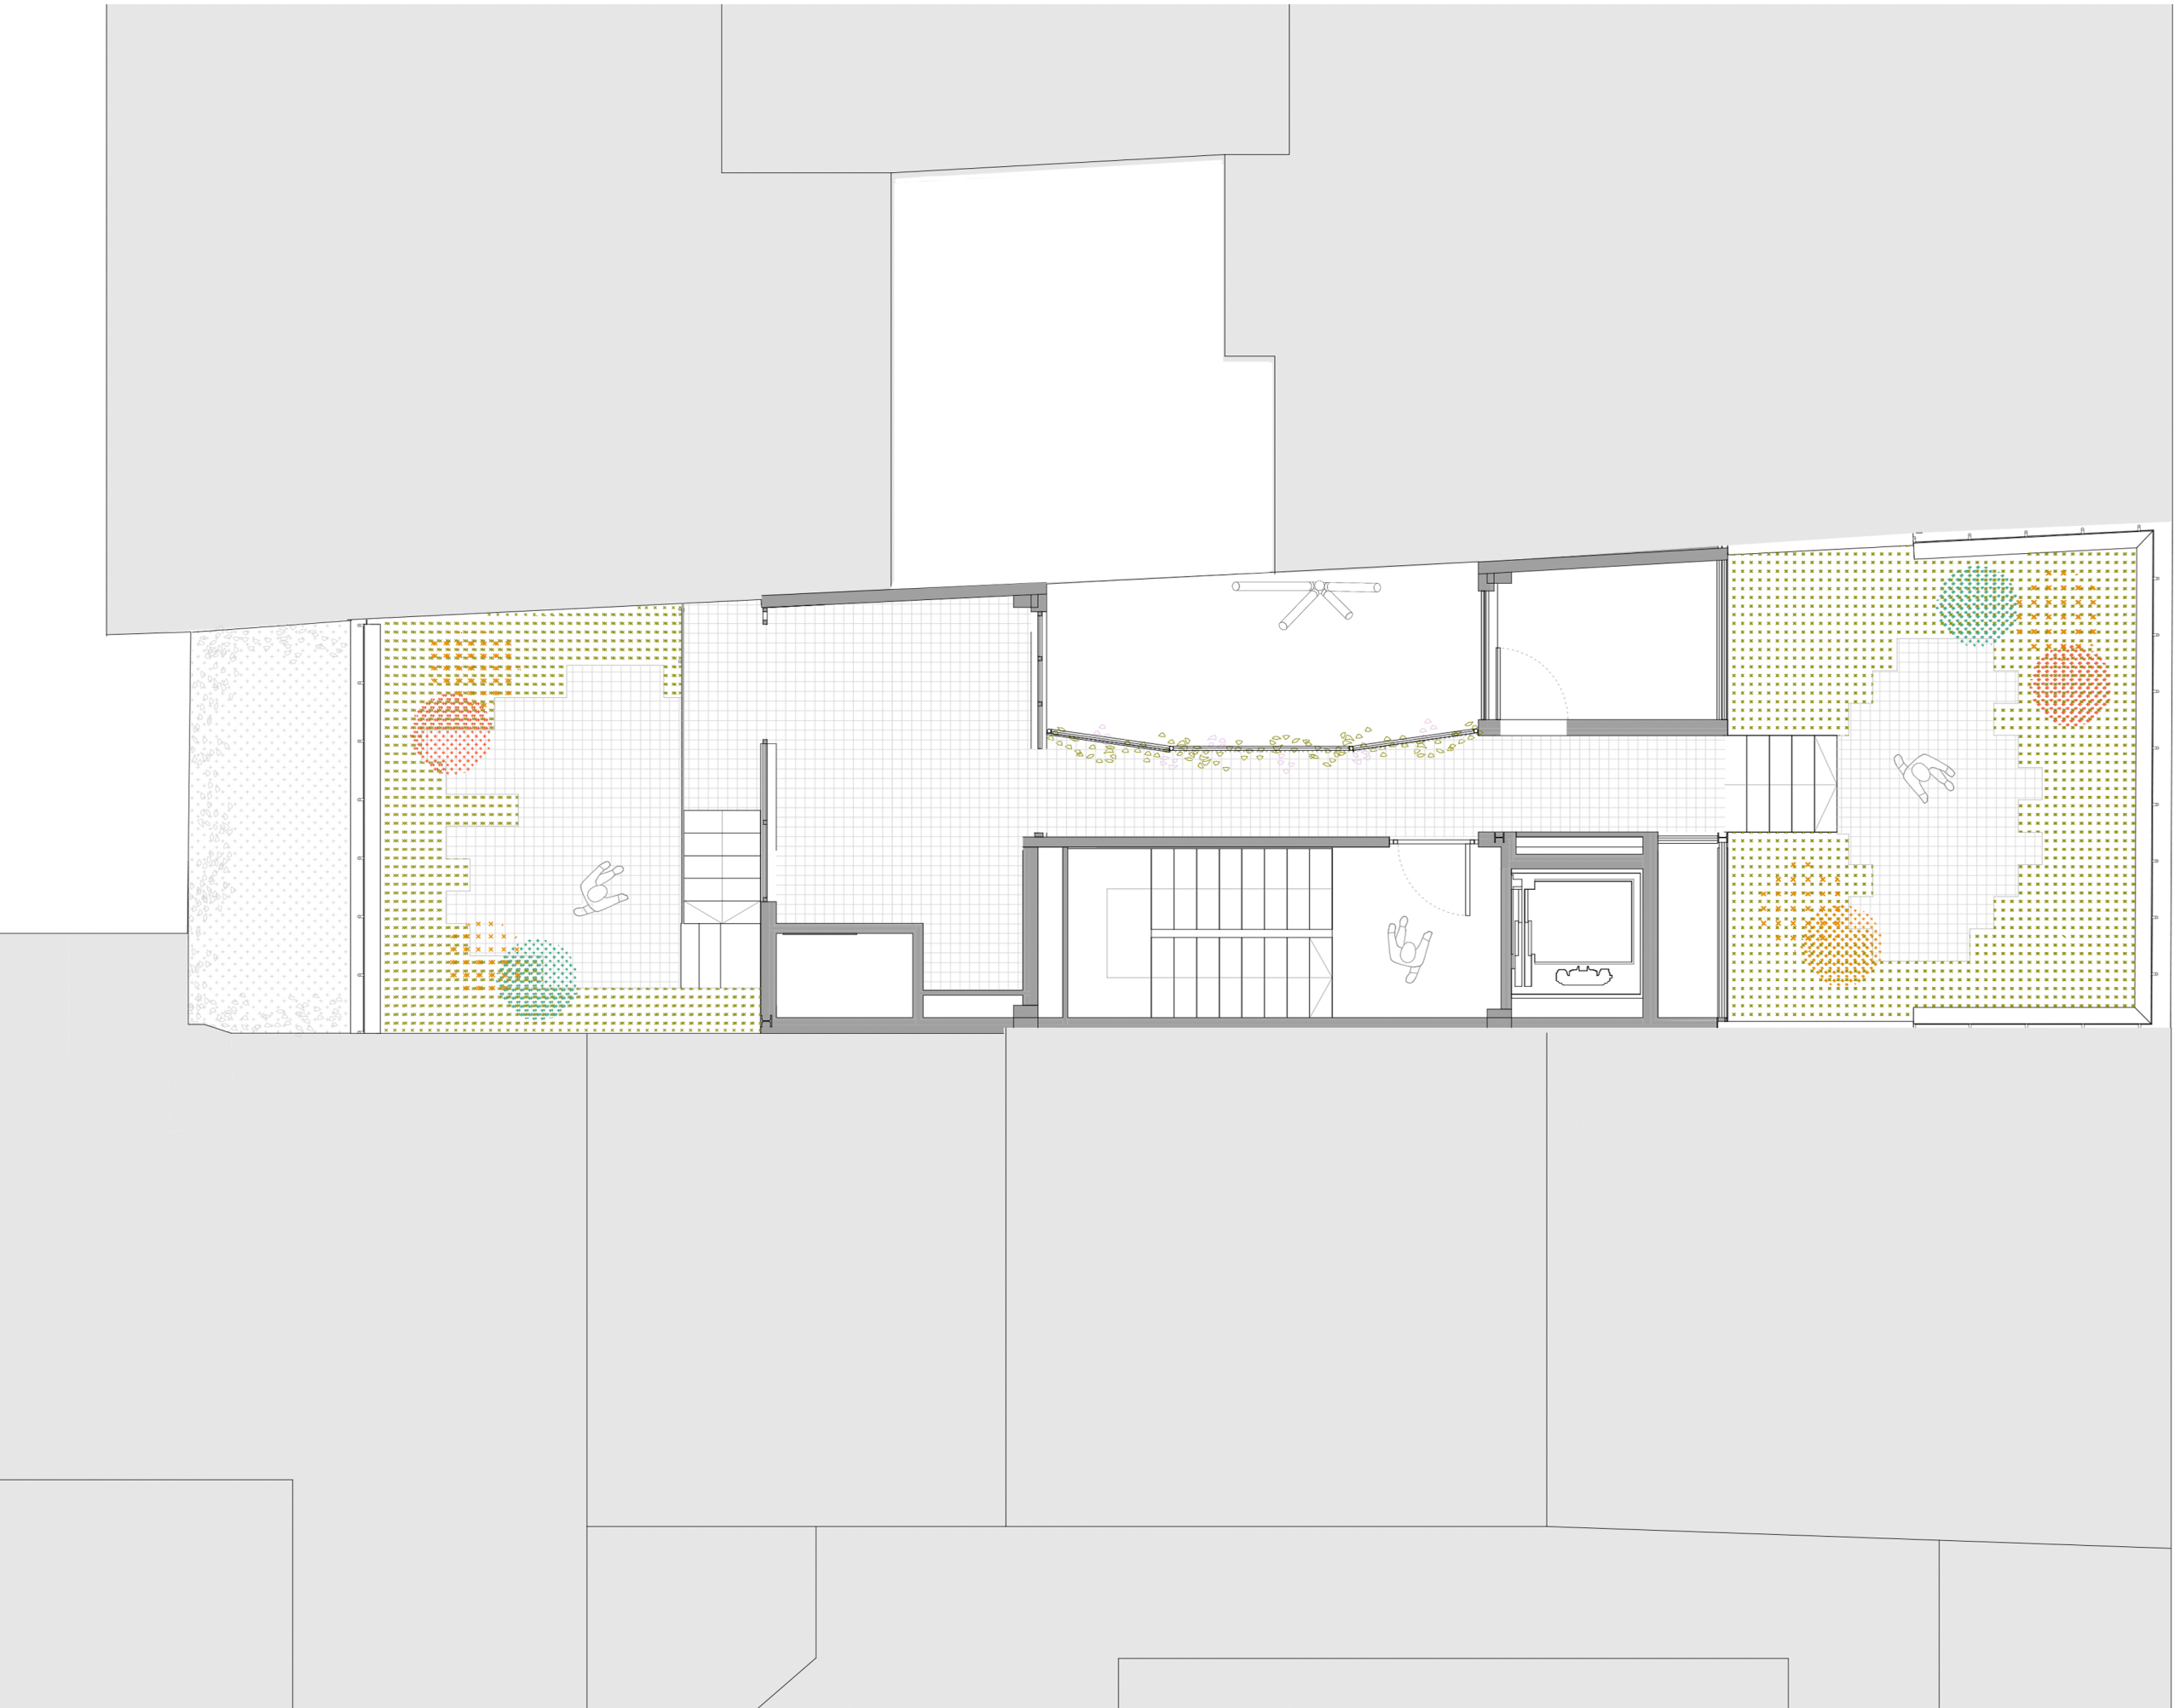

CARRER DE LEPANT

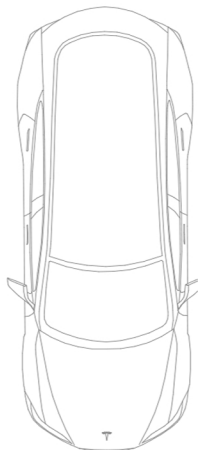

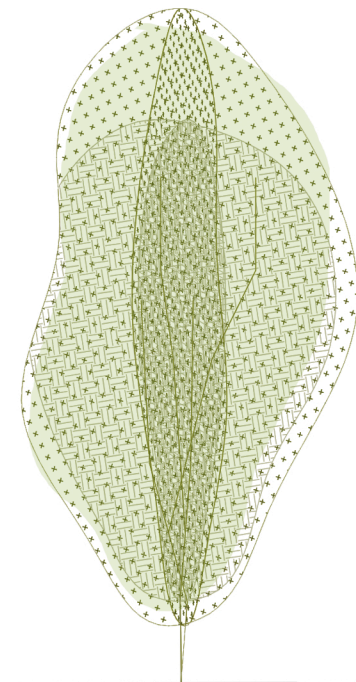

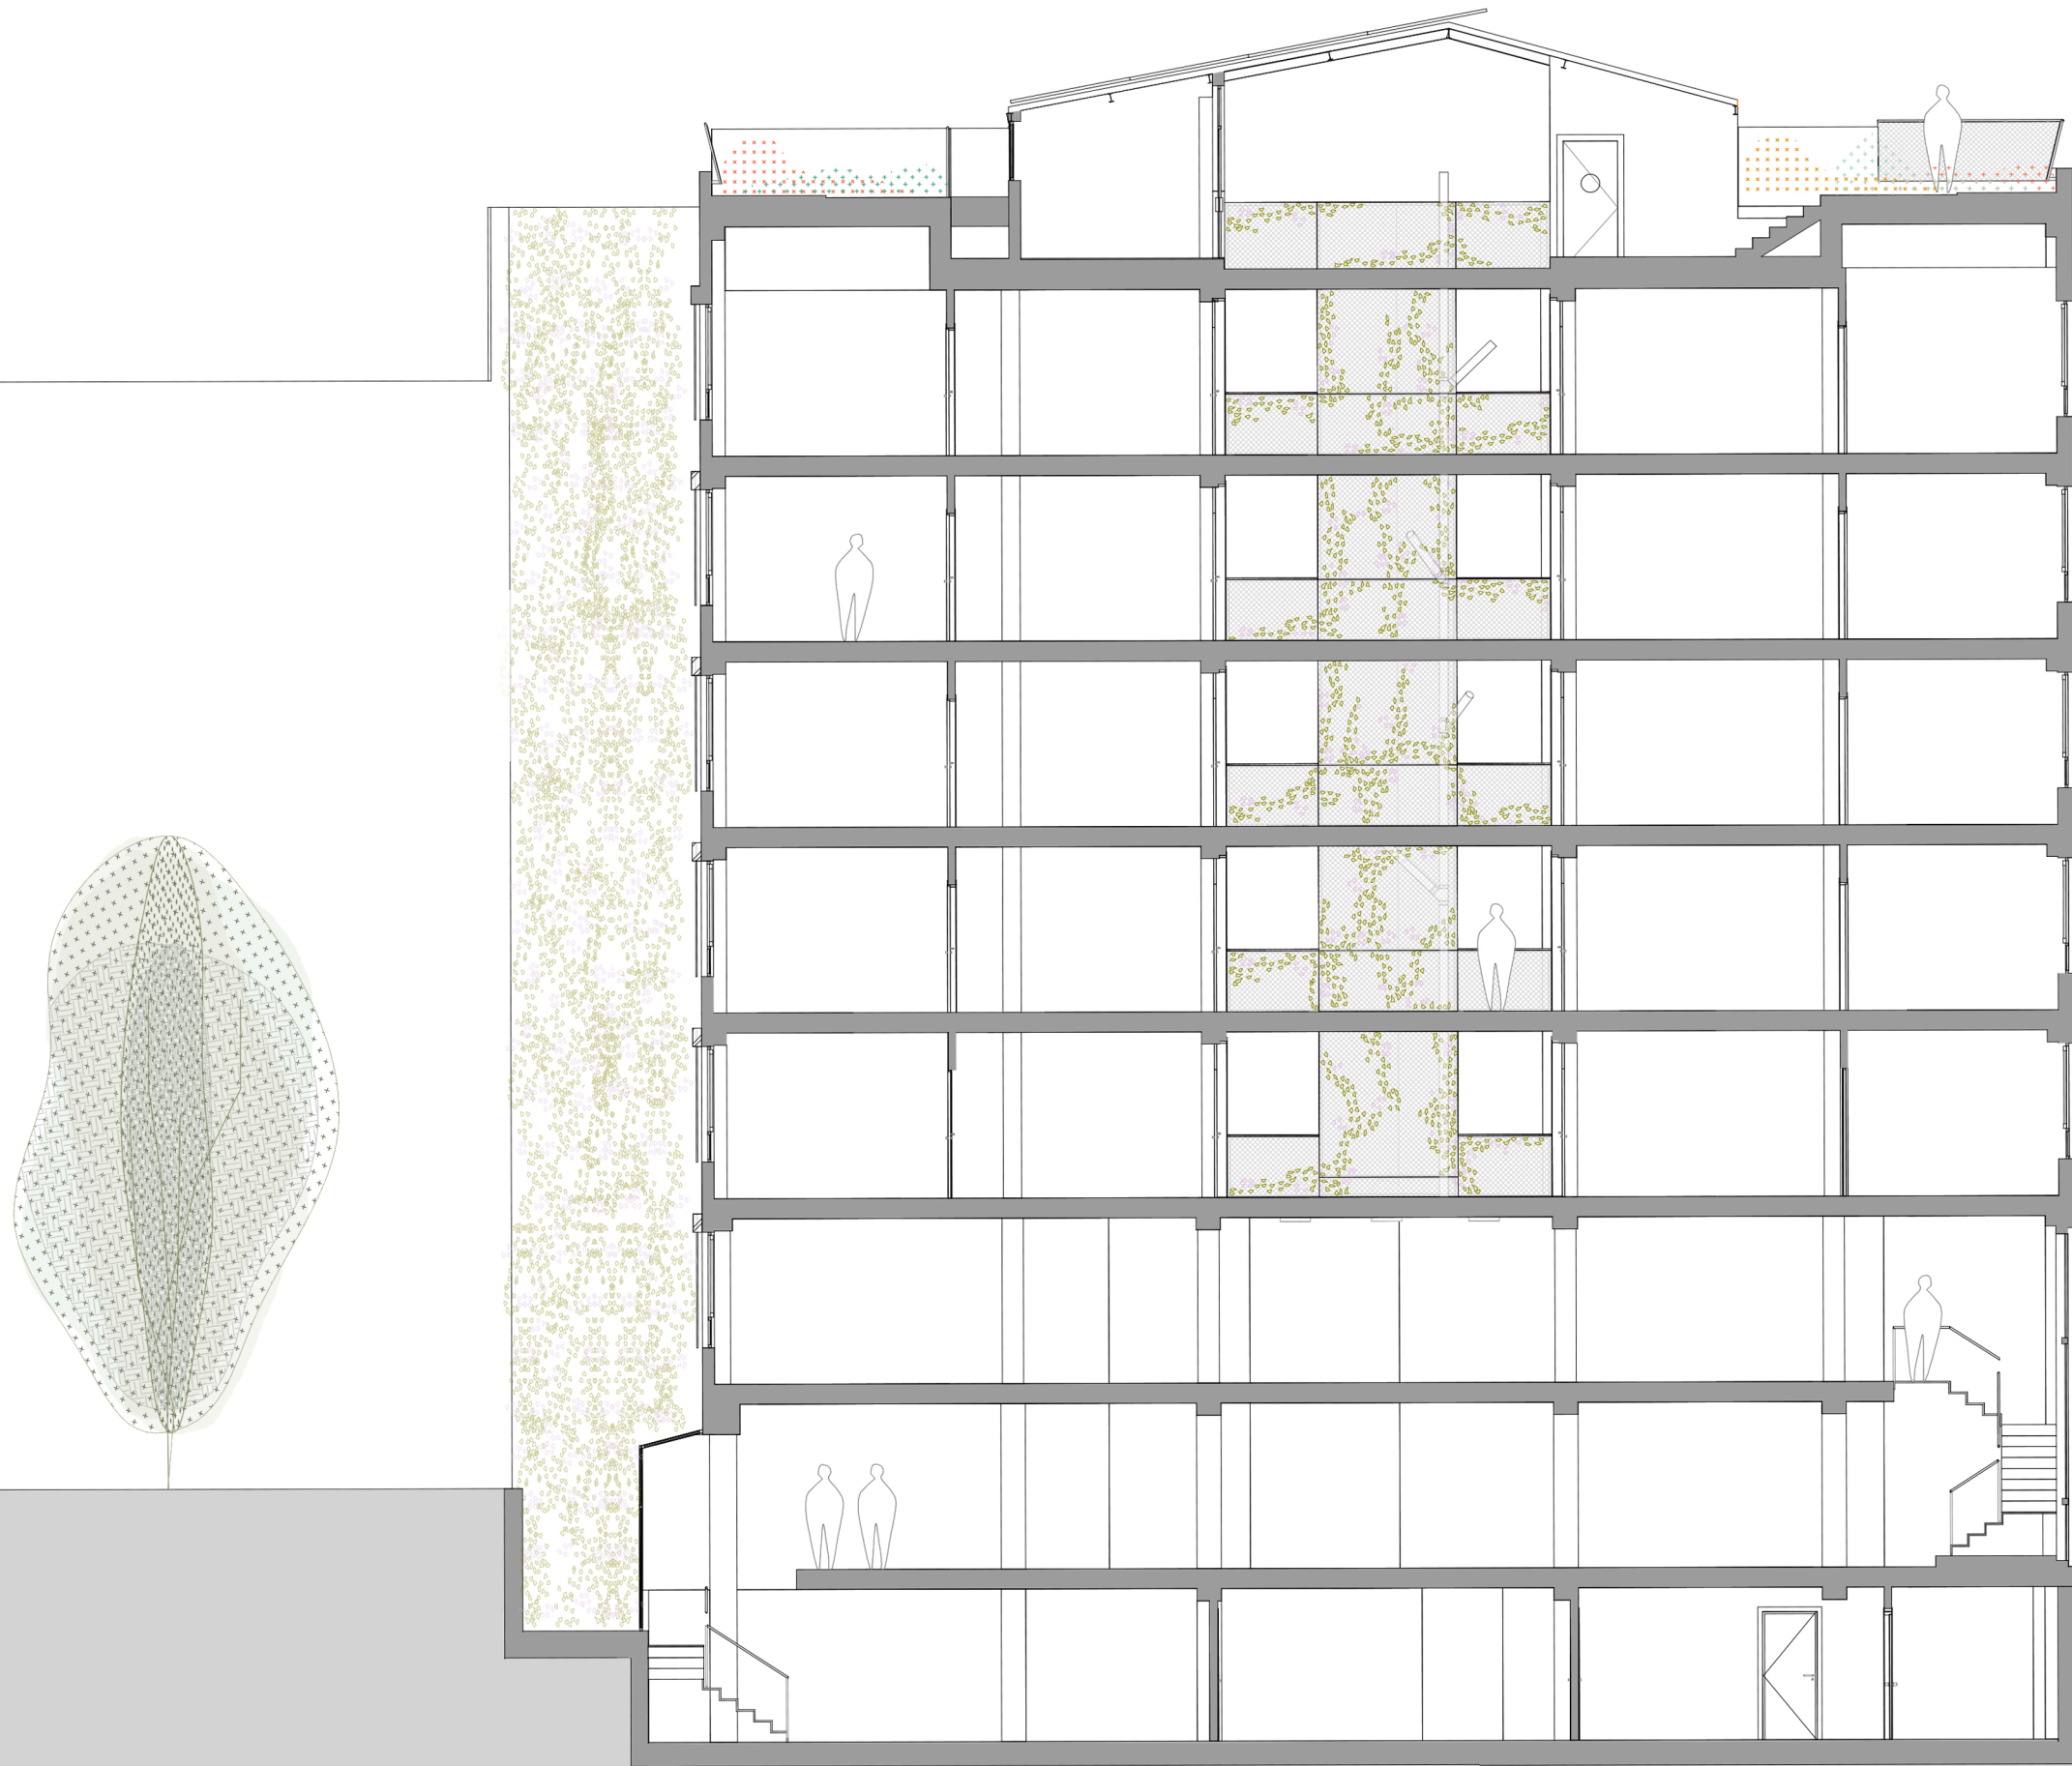

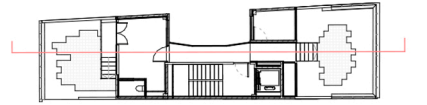

CARRER DE LEPANT

Alzado Exterior E-E'

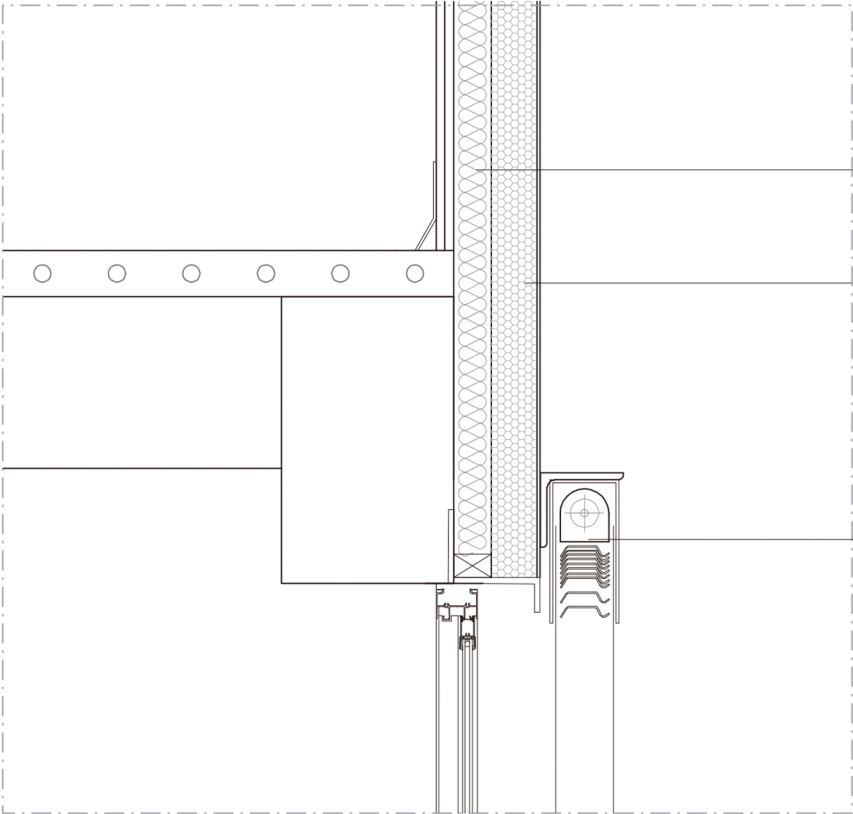

Alzado Interior I-I'

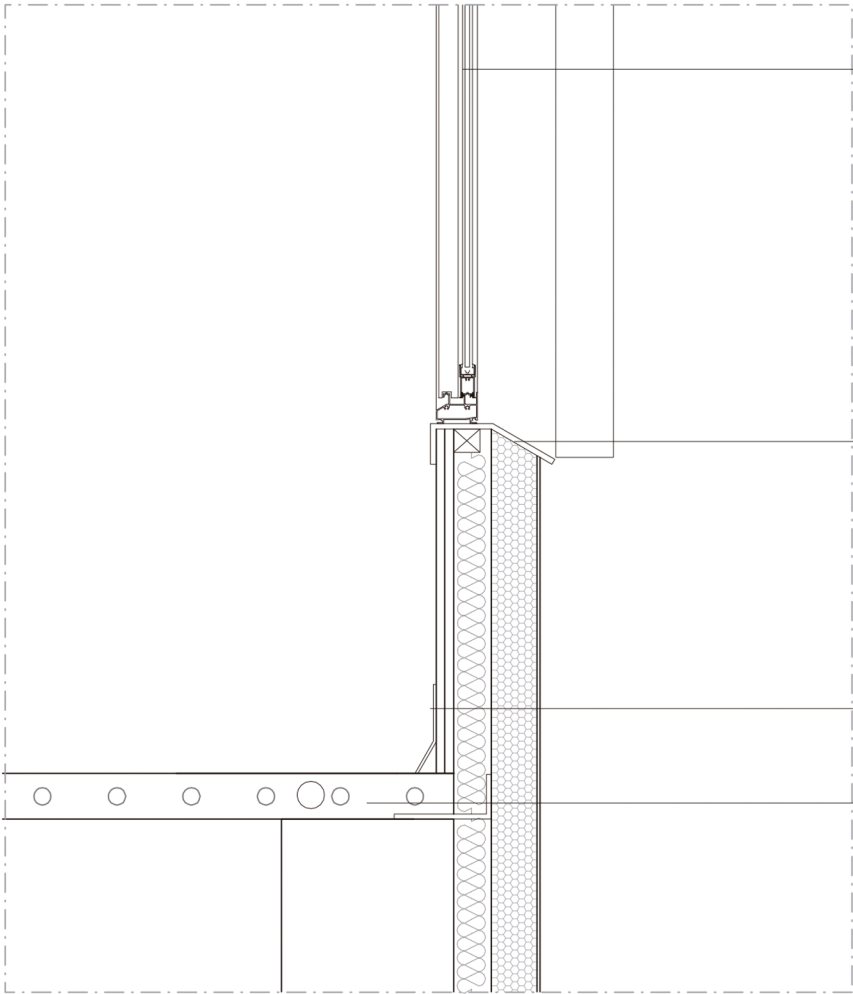

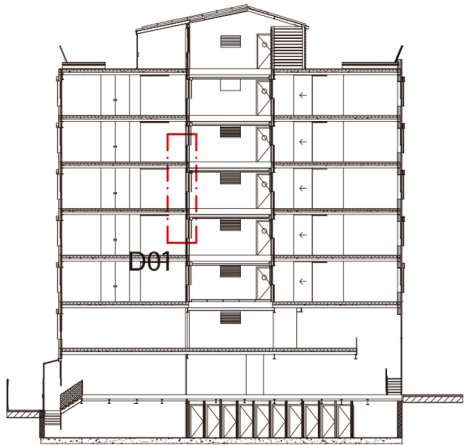

D01 - DETALLE FACHADA PATIO INTERIOR

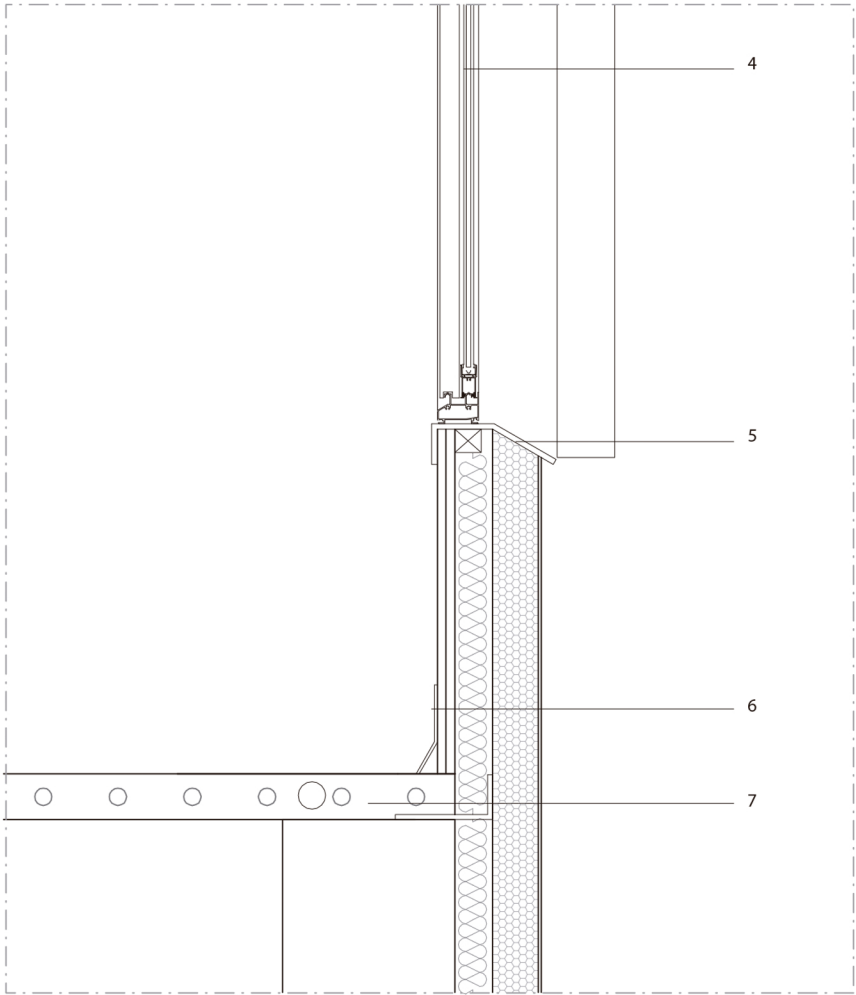

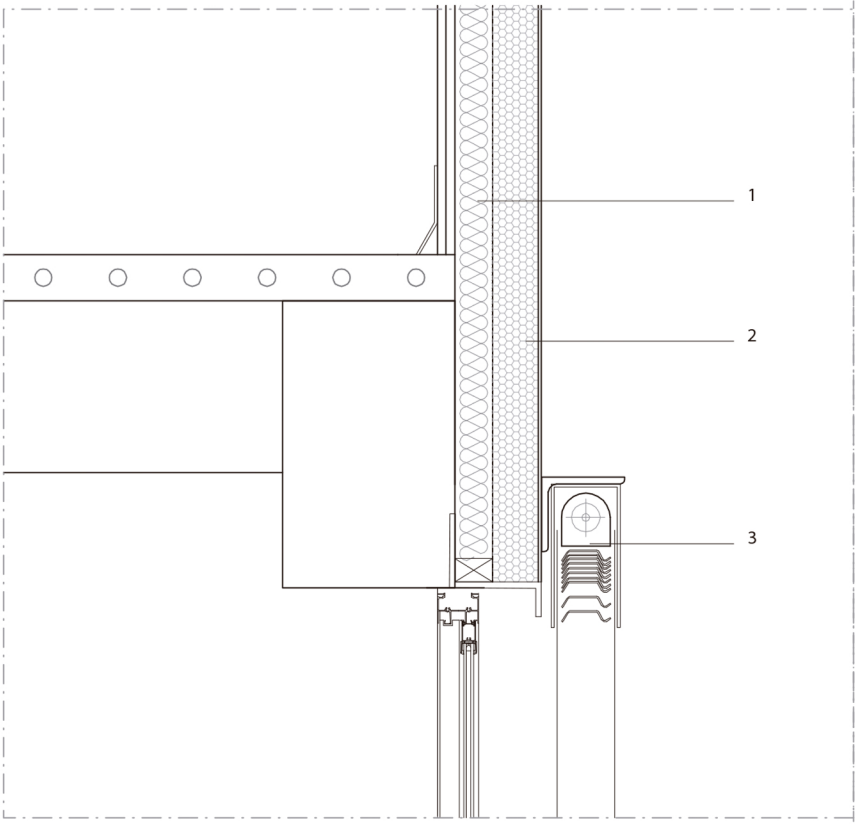

- Subestructura panel sandwich 60x40 c150 cm
- Panel sandwich de lana de roca con cara exterior de acero con relieve horizontal tipo Metalpanel F-Rock
- Persiana de lamas horizontales de aluminio orientables con sistema de recogida superior tipo Gradher-netic Metal-lic

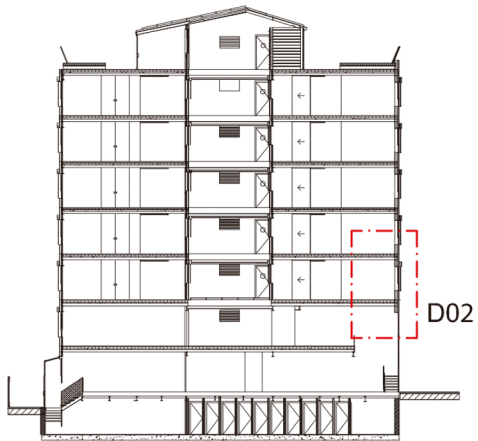

- Carpintería de madera
- Vierteaguas y cerco de aluminio
- Zócalo de acero inoxidable
- Caja de suelo radiante
Sujeción de panel sandwich

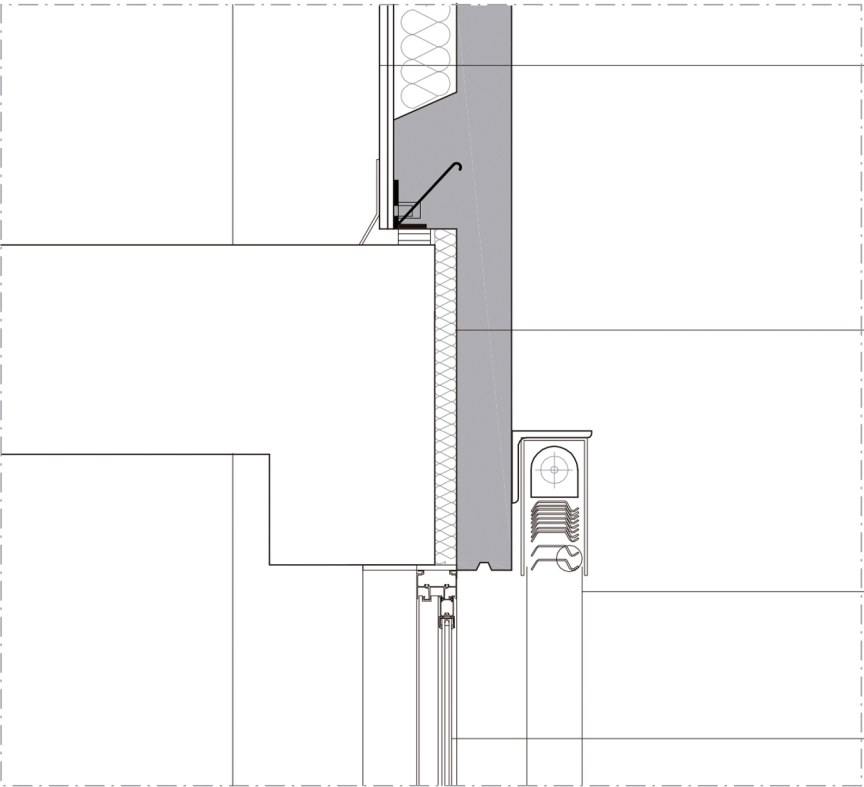

D01 - DETALLE FACHADA PATIO INTERIOR

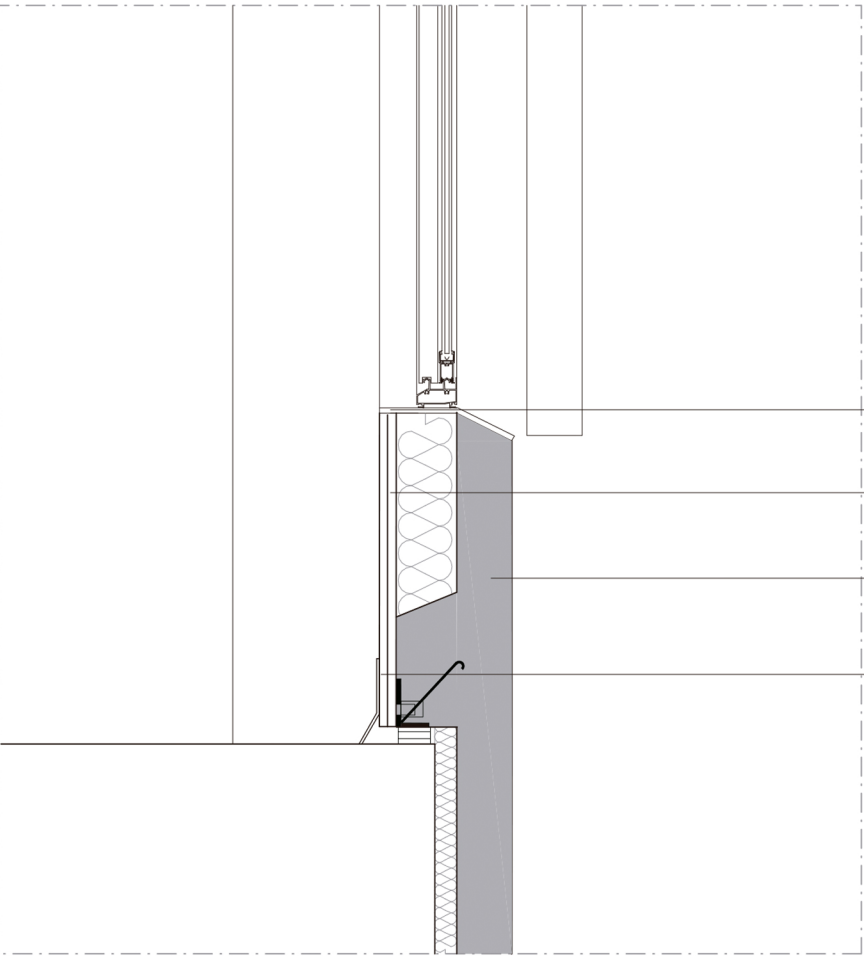

- 1 Subestructura panel sandwich 60x40 c150 cm
- 2 Panel sandwich de lana de roca con cara exterior de acero con relieve horizontal tipo Metalpanel F-Rock
- 3 Persiana de lamas horizontales de aluminio orientables con sistema de recogida superior tipo Gradhernetic Metal-lic
- 4 Carpintería de madera
- 5 Vierteaguas y cerco de aluminio
- 6 Zócalo de acero inoxidable
- 7 Caja de suelo radiante. Sujeción de panel sandwich

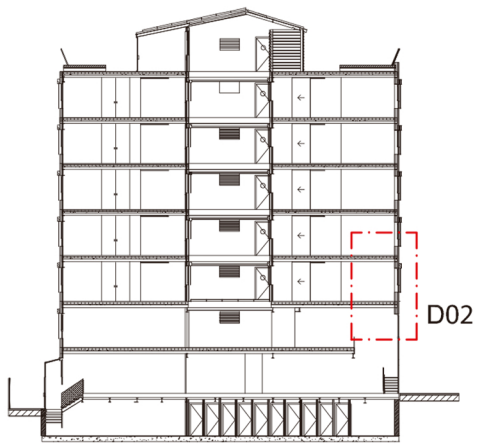

D02 - DETALLE FACHADA EXTERIOR

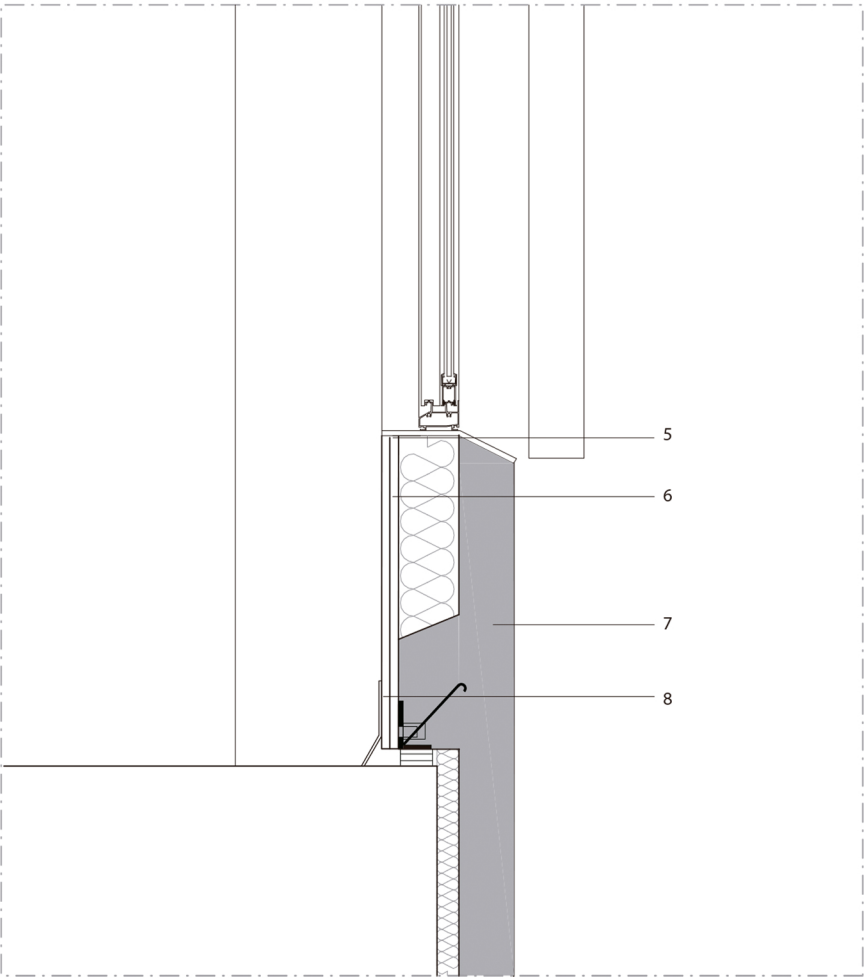

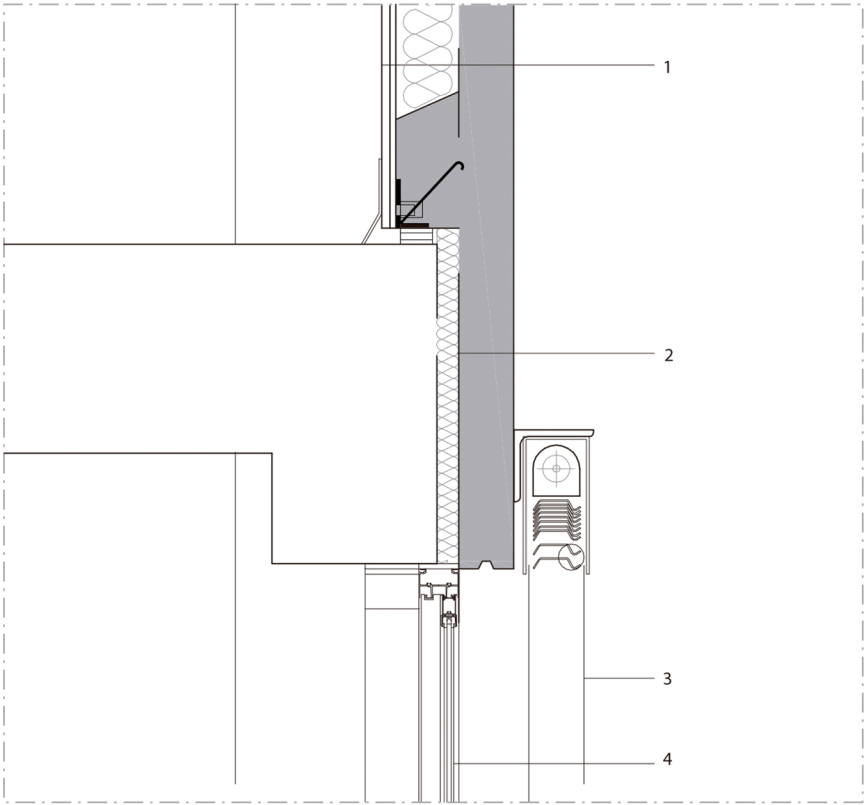

- Trasdosado de cartón-yeso
- Lana de roca adherida e:4cm
- Persianas de lamas horizontales de aluminio orientables con sistema de recogida superior tipo Gradhermetic Metal-lic
- Carpintería de aluminio

- Cerco de acero bruño
- Trasdosado de cartón-yeso
- Panel de hormigón serigrafiado de 10 cm
- Zócalo de acero inoxidable atornillado

D02 - DETALLE FACHADA EXTERIOR

- 1 Trasdoso de cartón-yeso
- 2 Lana de roca adherida e: 4cm
- 3 Persianas de lamas horizontales de aluminio orientables con sistemas de recogida superior tipo Gradhermetic Metal-lic
- 4 Carpintería de aluminio
- 5 Cerco de acero bruñido
- 6 Trasdoso de cartón-yeso
- 7 Panel de hormigón serigrafiada
- 8 Zócalo de acero inoxidable atornillado
