

PICHARCHITECTS/PICH-AGUILERA

We are a leading architecture team in the sector with 30 years of experience and experts in construction technology, quality, innovation and sustainability. Our main headquarters is in Barcelona. We also have an office in Mexico and another recently opened in Madrid.

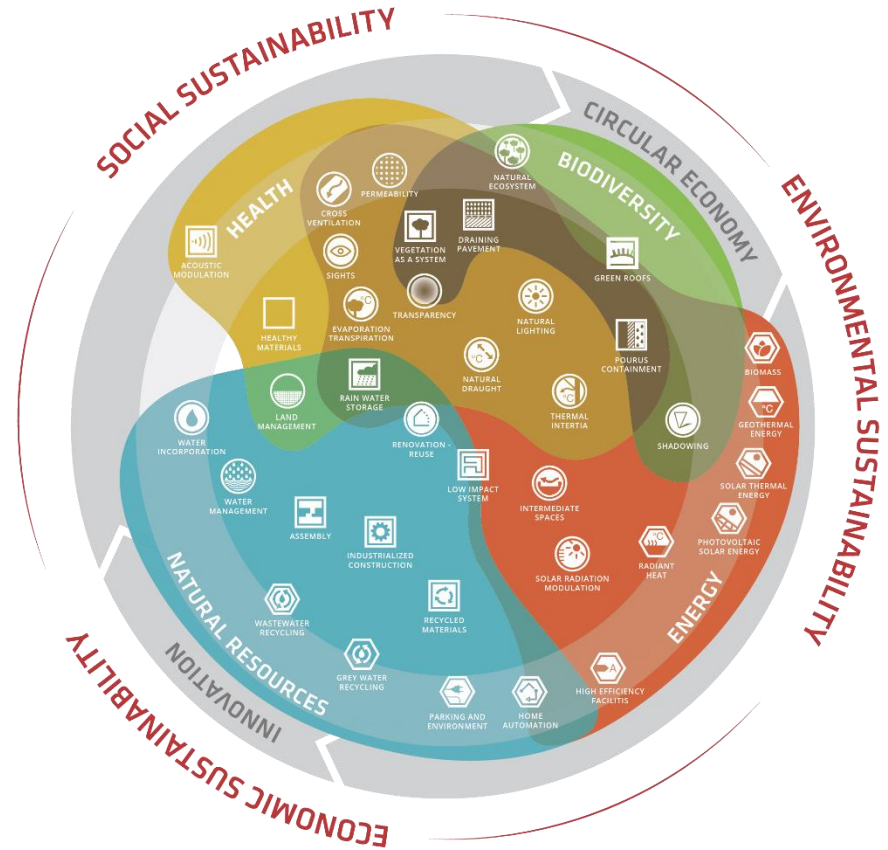

MISSION AND VISION

The studio works to incorporate into architectural projects aspects of sensitivity towards the environment, towards the energy efficiency of buildings, as well as reflection and transformation of the current construction processes in ways towards the sustainability of the building, the economy circulation and digitization.

"Integrate, structure, catalyze and produce, through architecture, contemporary responses to urban demands for comfort, habitability, integration and identity."

OUR VALUES

- 30 years of architecture in Barcelona with an international focus;
- Experts in construction technology, quality, innovation and sustainability.
- Sustainability as an economic, social and environmental whole
- We provide global solutions, from the urban approach to the construction details.

DÓNDE ESTAMOS?

MADRID – SPAIN

Since 2022, office that provides national coverage.

BARCELONA – SPAIN

(22@ Innovation District). Main office of the office and origin of its activity.

MONTERREY – MÉXICO

Since 2010, through our offices in Monterrey and a resident team, we have been working on sustainable building projects throughout the country.

METODOLOGY

SUSTAINABILITY

Application to projects

The SUSTAINABILITY area has established cross-cutting procedures that allow a proactive analysis of the bioclimatic and environmental aspects of the projects, with the aim of verifying the applied sustainability strategies and knowledge.

Environmental certifications

Our projects are accompanied by internationally recognized seals of sustainable excellence. We project with the criteria of the "GREEN seal" and certify with the national, European or international tools existing in the market "GREEN, LEED, BREEAM, WELL"..

Consulting and sustainable business model

We offer consulting services that promote the change in the building sector towards sustainable business models based on the circular economy; urban economic models, new construction or environmental reform.

Collaboration with PichInnovation

Sustainability collaborates closely with the R+D+i Department, supporting its work from the knowledge acquired and the necessary simulation and calculation tools.

Application to projects

Through a proactive analysis of the constructive and environmental aspects of the architectural project, we apply the knowledge acquired in collaborative development projects. We highlight passive strategies, circular economy, and BIM tools.

European Projects

We contribute to achieving the objectives of the European Commission and European directives related to the transformation or continuous improvement of the construction sector, collaborating with multidisciplinary and international teams.

University and Business

We develop projects in interaction with researchers, students, manufacturers, architects and engineers. We collaborate with the International University of Catalonia (UIC).

Collaboration with sustainability

PichInnovation collaborates closely with the Sustainability Department at Picharchitects, supporting its work from the knowledge acquired, and coordinating the necessary simulation and calculation tools.
